24 Month Warranty

Description

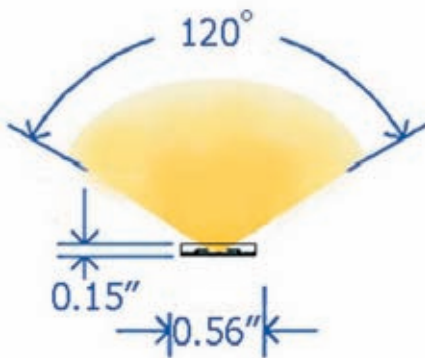

The LED Company's FLX300-RGB is a low profile, color changing array for interior and exterior applications.

The FLX300-RGB is available in custom lengths to 10 ft. The FLX300-RGB develops a 120 degree beam that provides an even RGB light.

Suggested applications: Coves, Displays, Back lighting, Signs, Edge lighting, anywhere a color changing effect is desired.

A flexible LED array in a clear, flexible silicone D-Channel extrusion.

* The FLX300-RGB works with our CCP-DR1 Driver for full DMX control.
